AMENDMENT INFORMATION

Amendment Type: New Project
Amendment Date: 05/14/2020
Amendment Number: 000
Proposal Number: 2006353
Amendment Description:

The National Science Foundation hereby awards a Continuing Grant for support of the project described in the proposal referenced above as modified by revised budget dated 04/24/2020.

Funds provided for participant support may not be diverted by the awardee to other categories of expense without the prior written approval of the cognizant NSF Program Officer. Since participant support cost is not a normal account classification, the awardee organization must be able to separately identify participant support costs. It is highly recommended that separate accounts, sub-accounts, sub-task, or sub-ledgers be established to accumulate these costs. The awardee should have written policies and procedures to segregate participant support costs.

The DRK-12 program has awarded a dissemination and evaluation network project as a cooperative agreement. The resource network is responsible for synthesizing findings across the DRK-12 portfolio, providing technical assistance to DRK-12 projects, promoting national awareness of research contributions from the DRK-12 portfolio, and building the DRK-12 community through PI and special interest meetings. All DRK-12 projects are expected to share their findings with the resource network, to participate in annual PI meetings, and other meetings of interest and to be responsive to requests for information from the resource network.
