Hello Mr. Verardo:

The Regents of the University of Idaho is requesting a no-cost time extension for the project entitled “Collaborative Research: Summer temperature reconstructions for Eastern North America” funded under V19639 SG4312. We are requesting this no-cost time extension for the following reason:
There was a delay in data collection due to the COVID-19 pandemic. The tree-ring data was recently collected per project deliverables in the eastern United States. Therefore we respectfully request the termination of this project be extended by 15 months through July 31, 2024.

If you have any questions, please contact the Post Award Contract Administrators, at postaward@uidaho.edu.

Sincerely,

Grant Harley
Principal Investigator
