AMENDMENT INFORMATION

Amendment Type: New Project

Amendment Date: 06/29/2020

Amendment Number: 000

Proposal Number: 2006101

Amendment Description:

The National Science Foundation hereby awards a Standard Grant for support of the project described in the proposal referenced above .

PIs are required to submit the final Summative Evaluation of or other knowledge-building product(s) from the project for posting to the web site <http://www.informalscience.org> (or other sites designated by AISL) as part of

submission of the Final Report. Final reports will not be approved before the summative evaluation/knowledge-building products are posted for the project.

As a condition of this award, the grantee agrees to work with an NSF third-party evaluator for the purpose of program evaluation.

It is the grantee's responsibility to ensure that any human subjects work conducted under this award has an Institutional Review Board (IRB) approval, where required, and that such approval remains valid at all times that human subjects work is conducted under the award. Failure to comply with this condition will result in suspension and/or termination of the award.

Funds provided for participant support may not be diverted by the awardee to other categories of expense without the prior written approval of the cognizant NSF Program Officer. Since participant support cost is not a normal account classification, the awardee organization must be able to separately identify participant support costs. It is highly recommended that separate accounts, sub-accounts, sub-task, or sub-ledgers be established to accumulate these costs. The awardee should have written policies and procedures to segregate participant support costs.
