AMENDMENT INFORMATION

Amendment Type: New Project

Amendment Date: 05/09/2020

Amendment Number: 000

Proposal Number: 1953170

Amendment Description:

The National Science Foundation hereby awards a Standard Grant for support of the project described in the proposal referenced above .

Funds provided for participant support may not be diverted by the awardee to other categories of expense without the prior written approval of the cognizant NSF Program Officer. Since participant support cost is not a normal account classification, the awardee organization must be able to separately identify participant support costs. It is

highly recommended that separate accounts, sub-accounts, sub-task, or sub-ledgers be established to accumulate these costs. The awardee should have written policies and procedures to segregate participant support costs.

It is the grantee's responsibility to ensure that any vertebrate animal work conducted under this award (including any work funded via use of a subaward) has an Institutional Animal Care and Use Committee (IACUC) approval, where required, and that such approval remains valid at all times that vertebrate animal work is conducted under the award. Such IACUC approval must be from an organization that maintains a current assurance from the Public Health Service. Failure to comply with this condition will result in suspension and/or termination of the award.
