AMENDMENT INFORMATION

Amendment Type: New Project

Amendment Date: 08/17/2022

Amendment Number: 000

Proposal Number: 2235197

Amendment Description:

The National Science Foundation hereby awards a Fellowship Award for support of the project described in the proposal referenced above.

The provisions of the Graduate Research Fellowship Program (GRFP) program solicitation (NSF 22-614) and "Graduate Research Fellowship Program Administrative Guide for Fellows and Coordinating Officials" (NSF 22-067) are available at <https://www.nsf.gov/pubs/2022/nsf22614/nsf22614.pdf> and <https://www.nsf.gov/pubs/2022/nsf22067/nsf22067.pdf>, respectively, are applicable to this grant. If any inconsistencies between the award terms and conditions and the Program Solicitation or Guide are discovered, the Program Solicitation and Guide shall take precedence.

Available grant balances may be used for any GRFP Fellow who is in compliance with applicable program guidelines. Thus, funds from prior year grants may be used to support any NSF Graduate Research Fellow duly enrolled at a GRFP Institution in an eligible advanced degree program in a field supported by NSF (see the "Program Solicitation" and "Guide" for guidance).

Each institution, in accepting the funds, also certifies that the Fellows are eligible to receive the Fellowship under these terms and conditions. The institution has full responsibility for the conduct of the project or activity supported under an NSF grant and for the results achieved.

Funds from this award and/or any amendments to this award are expected to be fully expended in support of the GRFP Fellows prior to expending funds from any newly issued GRFP award.

The GRFP Administrative Guide shall take precedence in the event of any Terms and Conditions conflicts.
